

# **Nova Engine Asset Store Terms**

## **1. Scope**

These Nova Engine Asset Store Terms ("Asset Terms") govern your use of the Nova Engine asset store as an uploader ("Creator") or downloader ("User") of assets ("Assets"), including models, textures, audio, scripts, blueprints, VFX, UI elements, and other content.

## **2. Allowed Licenses and Ownership**

2.1 Creator Ownership. Creators retain ownership of Assets they upload, subject to any applicable third-party rights.

2.2 Allowed Licenses. Creators may upload Assets only if they can validly license them under one of the following license types:

- (a) CC0 (public domain dedication);
- (b) CC-BY (Creative Commons Attribution);
- (c) MIT License;
- (d) Apache License 2.0;
- (e) other licenses explicitly approved in writing by WeNova Interactive.

2.3 Representations. By uploading an Asset, the Creator represents and warrants that:

- (a) they have the right to upload and license the Asset;
- (b) the Asset does not infringe any third-party IP rights;
- (c) the Asset does not contain malware, spyware, or malicious code.

### **3. License to Users**

Subject to compliance with these Asset Terms and the applicable license selected by the Creator, Users are granted a license to:

- (a) download and use the Asset in Projects built with Nova Engine;
- (b) modify the Asset for use within Nova Engine Projects.

Unless explicitly allowed by the Asset's license, Users may not redistribute the Asset outside of Nova Engine-based Projects or claim ownership over the Asset itself.

## **4. Prohibited Content and Enforcement**

Creators may not upload Assets that:

- (a) are illegal, hateful, defamatory, or exploitative;
- (b) are ripped from other games or unauthorized sources;
- (c) violate privacy, publicity, or contractual rights;
- (d) are primarily intended for cheating, exploiting, or harming multiplayer experiences.

WeNova Interactive may remove any Asset and suspend or terminate accounts at its discretion for violations of these terms.

## **5. Nova Engine's Role**

WeNova Interactive does not claim ownership of Creator-uploaded Assets but may:

- (a) host and distribute Assets via the asset store;
- (b) display thumbnails, previews, and descriptions of Assets;
- (c) remove or disable access to Assets in response to complaints, takedown requests, or policy violations.

WeNova Interactive is not liable for disputes between Creators and Users, though it may, at its discretion, assist in resolving issues.
